February 23, 2011

Mr. Pete R. Carr
City Manager
City of Biggs
P. O. Box 307
Biggs, CA 95917

Dear Mr. Carr:

Your agency has failed to provide the Plan of Actions (POA) for bridges under your agency's jurisdiction as stated in the letter that was sent by the California Department of Transportation (Caltrans) in July 2009. This letter is to notify you that your agency may be subject to federal funds being withheld for failure to complete POAs. To avoid potential withholding of federal funds by the Federal Highway Administration (FHWA), you must submit POAs for your scour critical or unknown foundation bridges to your District Local Assistance Engineer (DLAE) **by March 15, 2011**.

To assist you in this effort, please refer to the Caltrans Structure Maintenance and Investigations Web site located at: <http://www.dot.ca.gov/hq/structur/strmaint/scour.htm>. This Web site provides FHWA requirements, Caltrans letters to local agencies, POA templates, sample POAs, POA form field definitions, frequently asked questions and answers, links to other POA reference material, and a link to the list of agencies with outstanding POAs.

Caltrans sent a letter to your agency in July 2009, along with a list of scour critical bridges and bridges with unknown foundations that required POAs. In a letter dated May 12, 2010, your agency was again notified that the necessary POAs within your jurisdiction had not been submitted, along with the list of bridges. In general, preparing a POA should not take more than about four hours of staff time.

Since the original deadline to submit POAs was November 1, 2010, FHWA is now looking at withholding federal funding for agencies with outstanding POAs. This will impact all Title 23 federal funds your agency receives and Regional Surface Transportation Program exchange funds. Immediate action is required to avoid federal funds being withheld from projects.

Mr. Pete R. Carr
February 23, 2011

317 Broad Street
Nevada City, CA 95959

Dear Mr. Albaugh:

Your agency has failed to provide the Plan of Actions (POA) for bridges under your agency's jurisdiction as stated in the letter that was sent by the California Department of Transportation (Caltrans) in July 2009. This letter is to notify you that your agency may be subject to federal funds being withheld for failure to complete POAs. To avoid potential withholding of federal funds by the Federal Highway Administration (FHWA), you must submit POAs for your scour critical or unknown foundation bridges to your District Local Assistance Engineer (DLAE) by **March 15, 2011**.

To assist you in this effort, please refer to the Caltrans Structure Maintenance and Investigations Web site located at: <http://www.dot.ca.gov/hq/structur/strmaint/scour.htm>. This Web site provides FHWA requirements, Caltrans letters to local agencies, POA templates, sample POAs, POA form field definitions, frequently asked questions and answers, links to other POA reference material, and a link to the list of agencies with outstanding POAs.

Caltrans sent a letter to your agency in July 2009, along with a list of scour critical bridges and bridges with unknown foundations that required POAs. In a letter dated May 12, 2010, your agency was again notified that the necessary POAs within your jurisdiction had not been submitted, along with the list of bridges. In general, preparing a POA should not take more than about four hours of staff time.

Since the original deadline to submit POAs was November 1, 2010, FHWA is now looking at withholding federal funding for agencies with outstanding POAs. This will impact all Title 23 federal funds your agency receives and Regional Surface Transportation Program exchange funds. Immediate action is required to avoid federal funds being withheld from projects.

Mr. Gene Albaugh
