

CALIFORNIA

SUSTAINABLE FREIGHT INITIATIVE

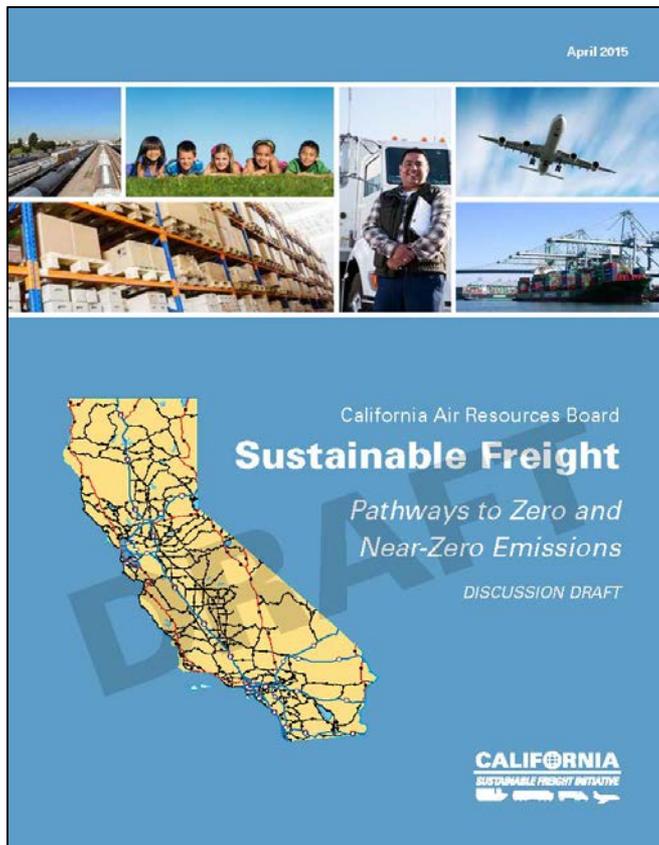

Update on the Sustainable Freight Strategy California Transportation Commission

May 28, 2015

California Environmental Protection Agency

 **Air Resources Board**

Sustainable Freight: Pathways to Zero and Near-Zero Emissions

- Informational item to ARB Board in April
- Resolution 15-22
- California Sustainable Freight Strategy

ARB Immediate Actions and Near-Term Measures

Immediate Actions to Reduce Health Risk:

- Enhanced enforcement
- Incentives

Near-Term ARB Measures:

- Cleaner Combustion
- Zero Emissions

Vision for the Future and Broad Based Approaches

Vision: Opportunities to accelerate progress toward zero emissions in each equipment category

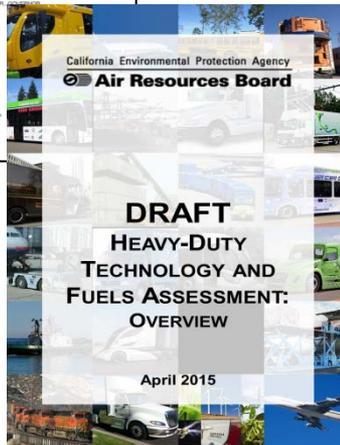

Broad based approaches:

- Land use and transportation infrastructure
- Facility based approach
- System efficiency

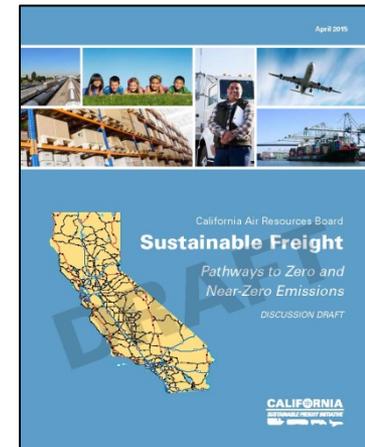

California Sustainable Freight Strategy

Actions and milestones that transition California to a sustainable freight system supporting environmental, energy, transportation, and economic objectives.

Foundation for Strategy

- Environment
- Transportation
- Economy
- Energy
- Technology

Process for Strategy Development

- Interagency planning effort
- Public process (Summer-Fall 2015)
 - California Freight Advisory Committee
 - Specific outreach/work sessions as appropriate
- Economic assessments
- Environmental assessment
- Anticipate completed plan mid-2016

Strategy Development

- Potential components
 - Environmental, transportation, and economic objectives
 - Specific actions
 - Pilot projects
- Work with agency partners

CTC Assistance with the Strategy

- Continued collaboration and involvement on the Sustainable Freight Strategy
 - What policies should we include?
 - What strategies should we consider?
- Continue ARB's role participating in the development of RTP and STIP Guidelines
- Work together to achieve our transportation, economic, and environmental objectives
