Short Project Description: _____

CMAQ Amount obligated (as shown on the FNM-76): _____

Total Project Cost: _____

Federal CMAQ Project Type: _____

Expanded Project Description: _____

Air Quality Analysis

Please complete the table below with the annual emission reductions attributable to this project. Please state your source for the emission reductions, e.g., air conformity analysis, environmental analysis, etc. If the information is not in an available document, you may use the appropriate methodology included in our attachment; or, as a last resort, write a qualitative assessment based on a reasonable and logical explanation of how the project will decrease emissions.

Source of emission determination: _____

If attached methodology was used, what project-life was used: _____

Summary Table

Total Reduced Emissions (kg / day)	ROG	NO _x	CO	PM10

Submit completed form to: Department of Transportation
